WHO I AM

Former scientist turned documentation geek. I love writing technical documents, as well as learning to code and exploring graphics, layouts and web design. I have a background in document control and quality systems, thus I am meticulous and driven to create high quality documentation!

SKILLS & EXPERTISE

- Editing and review – *I pick apart documents to ensure they are as great as possible*
- Organization – *I live and breathe proper content layout*
- MS Office Suite – *I know the in's and out's of MS Office (as well as OpenOffice)*
- Basic programming – *I can read Java, Python, and JavaScript and I enjoy web design using HTML and CSS*
- Communication – *Skilled at writing clearly and concisely, expressing ideas, and providing feedback*
- Interpersonal – *Always sensitive and supportive, I work well with others and am happy to take on responsibility*
- Quality – *Details, details, details! I am all about finding those tiny mistakes or missing bits of information*

EXPERIENCE

Document Control and Quality Systems Specialist Nanōmix, Inc. Emeryville, CA

February 2012 – April 2013

- Restructured the archival of electronic and paper quality system documentation to optimize usability.
- Transformed existing quality procedures to optimize for adaptability and compliance.
- Identified issues within the quality system or documentation and collaborated with other teams to resolve.
- Critiqued, edited, released, archived, and monitored quality procedures and records.
- Authored and initiated quality documents.
- Managed tracking logs for compliance training, supplier qualification, document and part numbering, lot numbering, quality documents, document change orders, and equipment calibration and maintenance.
- Monitored training activity to ensure training files are consistent with current procedures.
